SAFETY

KNOW IT, RESPECT IT, RIDE IT.

- Do not ski or ride alone off piste.
- On-mountain emergency phone number **604.935.5555**.
- If you see an accident on the hill that requires first aid, cross skis above the location and report the exact location and type of injury to the nearest mountain staff.
- Watch for changing conditions – natural or man-made. They vary constantly with weather and usage.
- You will encounter snow cats and snowmobiles on Whistler and Blackcomb Mountains. Please slow down when you see them and give each a wide berth.
- Fast, reckless, irresponsible or discourteous skiing and riding on any part of the mountain may result in loss of lift access privileges. **Know the code: Ski and Ride with Care**.
- **Caution** – deep snow or tree wells can expose you to the risk of snow immersion injuries or fatalities. Educate yourself on how to reduce the risks and **always ski or ride with a partner**.
- Our principal focus on safety is skiing and snowboarding in a safe and controlled manner. Whistler Blackcomb encourages the use of helmets and protective equipment for the sports of alpine skiing and snowboarding.
- Degree of difficulty ratings (green circle, blue square, black diamond) are relative to each ski area. A black run at your home mountain is not the same as a black run at another resort. Skiers should work their way up starting with the easiest run, regardless of their ability level.
- Poles, flags, fencing, signage and padding on equipment or objects or other forms of marking devices are used by the ski area to inform you of the presence or location of a potential obstacle or hazard. Beware that some hazards are not marked, use caution at all times.

If you have any questions or concerns regarding closures, safety or terrain, please contact the Ski Patrol.
