RED RIVER SKI AREA

supports responsible use of natural areas for recreation by recycling, using recycled materials, practicing waste reduction and replanting and reseeding trails. The Red River Ski Area provides activities for people and serves a critical need as a feeding area and habitat for animals year round. Think globally, act locally.

Skiing at Red River Ski Area is made possible through a unique public-private partnership with the United States Forest Service which manages those portions of the federal land utilized for skiing.
