

All of Northway is an avalanche prone area. Avalanche control can only reduce the risk not eliminate it. You assume the risk. Contact Ski Patrol for more information.

The slopes beyond the designated boundary of Crystal Mountain are wilderness area. Dangerous conditions exist including steep cliffs which may not be visible from above. Rescue, if possible, may be slow and costly to you. There is no avalanche control. Once you leave the ski area boundary you are responsible for your own safety. Visit the website for detailed safety, boundary & policy info.
