

The shaded areas are prone to avalanches. Avalanche control can only reduce the risk not eliminate it. You assume the risk. Contact Ski Patrol for more information.

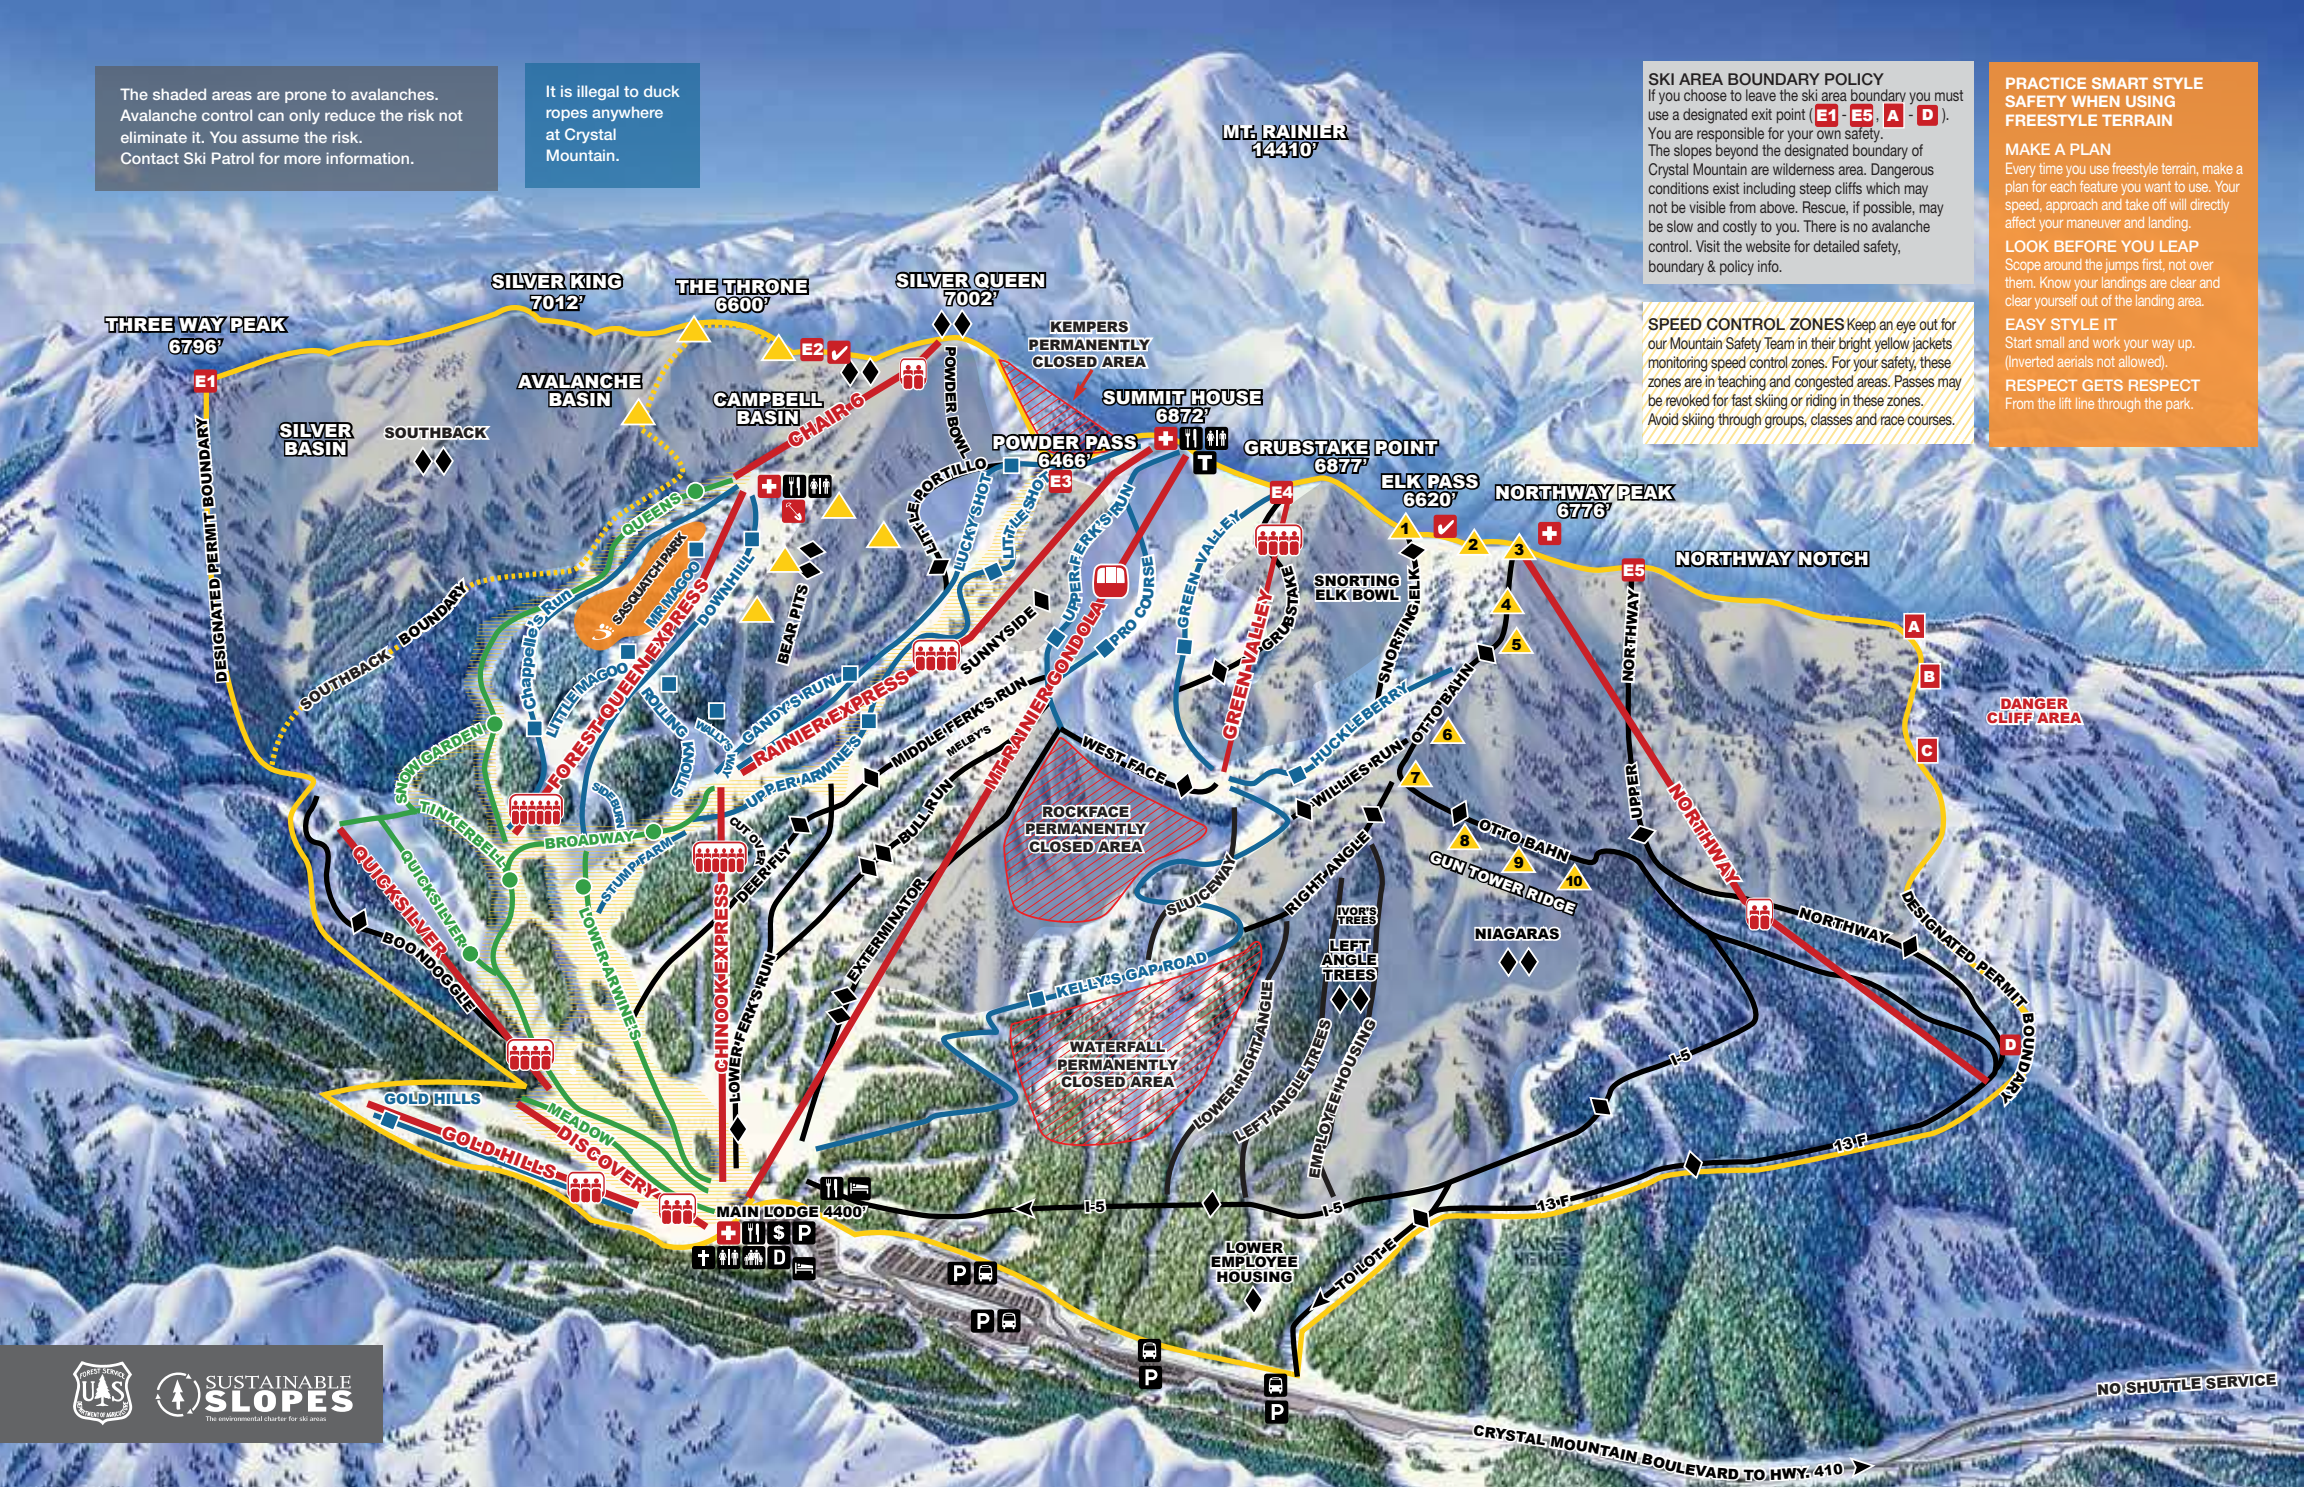

It is illegal to duck ropes anywhere at Crystal Mountain.

**SKI AREA BOUNDARY POLICY**  
If you choose to leave the ski area boundary you must use a designated exit point (E1 - E5, A - D). You are responsible for your own safety. The slopes beyond the designated boundary of Crystal Mountain are wilderness area. Dangerous conditions exist including steep cliffs which may not be visible from above. Rescue, if possible, may be slow and costly to you. There is no avalanche control. Visit the website for detailed safety, boundary & policy info.

**PRACTICE SMART STYLE SAFETY WHEN USING FREESTYLE TERRAIN**

- MAKE A PLAN**  
Every time you use freestyle terrain, make a plan for each feature you want to use. Your speed, approach and take off will directly affect your maneuver and landing.
- LOOK BEFORE YOU LEAP**  
Scope around the jumps first, not over them. Know your landings are clear and clear yourself out of the landing area.
- EASY STYLE IT**  
Start small and work your way up. (Inverted aerals not allowed).
- RESPECT GETS RESPECT**  
From the lift line through the park.

**SPEED CONTROL ZONES** Keep an eye out for our Mountain Safety Team in their bright yellow jackets monitoring speed control zones. For your safety, these zones are in teaching and congested areas. Passes may be revoked for fast skiing or riding in these zones. Avoid skiing through groups, classes and race courses.
