GREEN LOOP (Easy) 3.3 km from Clubhouse
From the Poplar Sideroad trailhead, the trail follows a slight incline through a hardwood forest. From the Georgian Bay overlook, the trail climbs to circle the snowmaking reservoir, then returns downhill alongside a small stream.

BLUE LOOP (Intermediate) 3.8 km from Clubhouse
This loop is accessed from the Green Trail but exits the trail above the snowmaking pond. It then winds its way up a short, steep slope through the forest. The trail descends just before the Band de Soleil run, working its way downhill to rejoin the Green Trail at the pond. Do not walk on the ski trail.

BLACK LOOP (Difficult) 7.5 km from Clubhouse
This trail forms a complete loop of the ski hill. The route leaves the Blue Loop from the north-end trails and continues uphill, where it crosses the Band de Soleil ski trail before making its way through the limestone cut to the top of the escarpment. It continues behind the top of the Poplar Chairlift to the top of the Exhibition Chairlift station. From there, the trail enters the forest, works its way east above the escarpment, then winds downhill through a cleft in the limestone cliffs. The trail descends into a wooded valley, then through the woods southeast of McKay’s Return to the Orchard Lodge, and back to the Clubhouse. This trail can also be accessed from the Orchard trailhead located to the east of the Orchard Lodge. From there, the trail winds its way through the woods to the end of Orchard Lane.

RED LOOP (Cross-Country Ski Trail) 3.6 km from Upper Chalet
This trail begins behind the top of the Exhibition Chairlift and quickly enters mature hardwood forest over fairly flat terrain. The trail then works its way back to finish at the top of the Poplar Chairlift. Conditions permitting, this trail can be used for cross-country skiing.
