

Mountain User Responsibility Code

Mountain biking offers a wide range of challenges and adventures, from easy cruising on gentle slopes to fast single-track descents and rigorous climbs. Regardless of what type of terrain you select, there are elements of risk in mountain biking that common sense and personal awareness can reduce but not eliminate. Help create a great trail experience for everyone by observing these rules and precautions:

- Always wear a helmet when riding. Helmets are mandatory for accessing lifts.
- Stay on designated trails only.
- Maintain control of your speed at all times.
- Know your ability. Ride on trails marked for your ability. When in doubt, walk.
- Overtake other trail users with caution, and let them know you are there.
- Anticipate hikers and oncoming bikers at corners or blind spots.
- Be prepared to stop at any time.
- Bikers should yield the right of way to hikers.
- Downhill traffic should always yield to uphill traffic.
- Be self-sufficient. Our mountain is not patrolled, so ride with a buddy.
- Never ride under the influence of drugs or alcohol.
- Horses and motorized vehicles are not allowed on mountain trails.
- Avoid service roads, as resort maintenance vehicles may be working.
- Be prepared for unpredictable summer rains and temperature changes.
- During thunderstorms, stay away from ridges, tall trees and lift towers.
- Take extra clothing, gloves, sturdy shoes, bike tools and sunscreen.
- Remember, drink plenty of fluids.
- Mountain biking is a hazardous activity. Risks from varying terrain and obstacles can cause injury. Please understand you are using the mountain at your own risk.
- Pet owners are responsible for picking up after their pets.
- Dogs allowed on leashes only, but are not permitted in gondola.
- Please do not pick the wildflowers.

Environmental Code

While enjoying Snowbasin, please “tread lightly” and respect our mountain environment. Leave nothing on the mountain except your footprints; take nothing away except your memories. We thank you for helping keep Snowbasin beautiful. Please remember:

- Do not approach or disturb any wildlife you may encounter.
- Do not pick wildflowers and do not litter.
- Avoid trail erosion by riding smoothly and not skidding switchbacks.
- Absolutely no smoking or campfires on the mountain.

FOREST SERVICE

Please join us in offering thanks to the thousands of dedicated Forest Service employees who continue to care for our natural legacy, Uintah-Wasatch-Cache National Forest.
