Under New Jersey law, N.J.S.A. 5:13-7, an injured party must provide the ski area operator with a written report of all the details of an accident, including name, address, description of incident, location, alleged cause, others involved and witnesses within 90 days of the incident. An oral report of the ski area operator or Ski Patrol does not satisfy the requirements of N.J.S.A. 5:13-7. The failure to provide this writing to the ski area operator as soon as possible, but not more than 90 days from the date of the accident will prohibit the injured party from bringing a lawsuit against the ski area operator.

New Jersey Skiing: Operating a ski resort in New Jersey requires the use of snowmobiles, grooming machines, and snowmaking equipment. STAY IN CONTROL AND AWAY FROM THE EDGES OF TRAILS. Snowmaking and other equipment can be located off-trail, on the edges and sides of trails and sometimes even in designated places on trail. CONTACT WITH SNOWMAKING EQUIPMENT, SNOWMOBILES OR GROOMING MACHINES MAY RE-SULT IN SERIOUS INJURY OR DEATH. MAINTAIN A SAFE DISTANCE AT ALL TIMES AWAY FROM THE EDGE OF TRAILS, OFF-TRAIL AREAS, SNOWMAKING EQUIPMENT, LIGHTING OR GROOMING MACHINES. Fencing and/or ribbon/tape placed around the mountain is intended to assist patrons in the identifying boundaries and not necessarily designed to physically restrain, retain, or contain patrons.
