

## Your Responsibility Code

cross-country sixers, skers with disabilities, skers with specialized equipment and others. Always show countesy to others and be aware that there are elements of risk in sking and snowboarding that common sense and personal awareness can help reduce. Know your ability level and stay within it. Observe Your Responsibility Code listed below and share with others on the slopes the responsibility for a great snowsports experience.

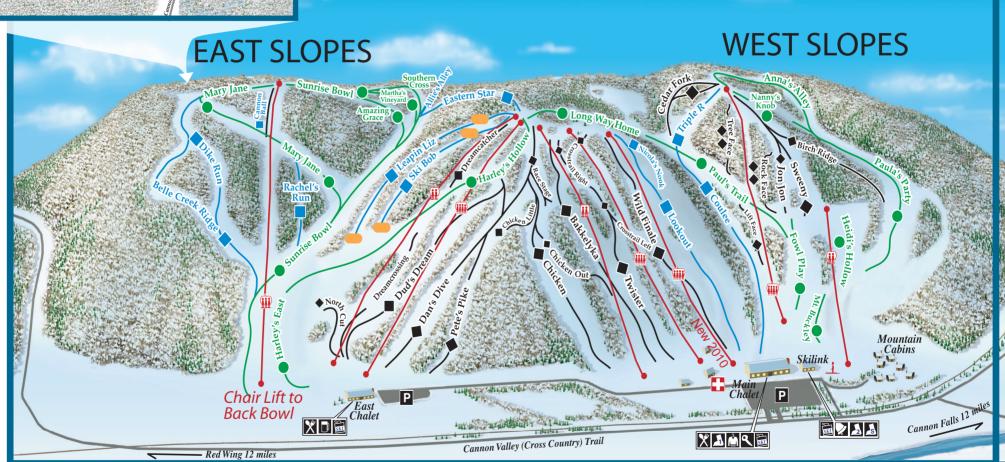

- People ahead of you have the right of way. It is your responsibility to avoid them. You must not stop where you obstruct a trail, or are not visible from those above. Whenever starting downhill or merging into a trail, look uphill and yield to others. Always use devices to help prevent runaway equipment.

- Observe all posted signs and warnings. Keep off closed trails & out of closed areas. Prior to using any lift, you must have the knowledge and ability to load, ride and unload safely.

nde and unload sately.

Skiers and riders should be advised that a green circle, blue square or black diamond trail at your area is not necessarily the same as a similarly rated trail at another area. The system is a relative system that is valid only at this area. Skiers and riders should work their way up, beginning with the easiest trails no matter what their ability level may be, until they are familiar with the trails at the area
