

THE STORY OF THE STAR

Although Silver Star Mountain Resort is not new to winter guests, it is still relatively mysterious. But those who journey here from afar are pleasantly surprised by the distinctive vacation experience found at "the Star" and covet the opportunity to call this special mountain their own. Welcome to Silver Star, located in British Columbia's mild Okanagan valley, with average daily temperatures

of -5 °C (23 °F). Share the secret of this uniquely visual and colourful Victorian village. From the moment you and your family arrive, be it by plane or by car, Silver Star strives to make your winter holiday both memorable and carefree. Choose from simple hotels or luxurious vacation homes with true ski-in ski-out access to over 3,000 acres of mountain terrain.

Most notably, Silver Star annually enjoys over 700 cm (23 feet) of light, dry, powder snow. Combine that with 112 runs and the result is truly unbelievable skiing and boarding. From cruiser-friendly Vance Creek to expert-haven Putnam Creek, affectionately referred to as "the dark side of the Star", there is literally something for everyone. This is the story of Silver Star: **my mountain.**

The snow is deep and plentiful.
