ENVIRONMENTAL INFO

WINTER PARK RESORT'S CONSERVATION EFFORTS

WIND ENERGY

Wind energy credits are used to offset power consumption for all new lifts. The latest of the resort's newest chairlifts - the Super Gauge Express (2005), the Eagle Wind (2006), and the Panoramic Express (2007).

RENEWABLE RESOURCES

Knives, forks, plates made from sugar and corn are used in all restaurants for single use items. Beetle kill trees used to produce mountain and base sign structures, and in summer bike trail construction.

ENERGY CONSERVATION

Computerized program reducing energy consumption saving (8.18 million pounds of carbon dioxide) green house gases per year.

RECYCLING / RECYCLED PAPER

Recycling containers located throughout Winter Park Resort. This map was printed on recycled paper saving trees, water and energy.

REAL ESTATE IN THE VILLAGE AT WINTER PARK RESORT

Stop by the Real Estate Sales Center near the base of the Zephyr Express lift and learn more about your chance to become part of a new village community at your favorite resort. Or visit us online at www.lovewinterpark.com for more information.

WINTER PARK RESORT TRAIL MAP & MOUNTAIN GUIDE

2007 | 08

YOUR RESPONSIBILITY

The Colorado legislature established as a matter of law that certain dangers and risks are inherent in the sport of skiing.

WARNING

Under Colorado law, a skier assumes the risk of any injury to person or property resulting from any of the inherent dangers and risks of skiing and may not recover from any ski area operator for any injury resulting from any of the inherent dangers and risks of skiing including: changing weather conditions, existing and changing snow conditions, bare spots, rocks, stumps, trees, collisions with natural objects, man-made objects or other skiers, variations in terrain, and the failure of skiers to ski within their own abilities. Colorado law includes cliffs, jumps, extreme and freestyle terrain in the inherent dangers and risks of skiing.

Skiing can be enjoyed in many ways. At ski areas you may see people using alpine, snowboard, telemark, cross-country, or other specialized ski equipment, such as that used by disabled or other skiers. Regardless of how you decide to enjoy the slopes, always show courtesy to others and be aware that there are elements of risk in skiing that common sense and personal awareness can help reduce. Helmets may make a difference in reducing or preventing injury. Like all equipment you should make sure that you have the proper fit and that it is in proper working order. Whether you use a helmet or not, always ski responsibly and within your ability, and share with other skiers the responsibility for a great skiing experience.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation and marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternatives means for communication of program information (Braille, large print, audiotape etc.) should contact USDA's TARGET Center at 202.720.2600 (voice and TDD). To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326-W, Whitten Building, 14th and Independence Avenue, SW, Washington, DC 20250-9410 or call 202.720.5964 (voice or TDD). USDA is an equal opportunity provider and employer.

YOUR RESPONSIBILITY CODE

- Always stay in control, be able to stop or avoid other people or objects.
- People ahead of you have the right of way. It is your responsibility to avoid them.
- You must not stop where you obstruct a trail or are not visible from above.
- Whenever starting downhill or merging into a trail, look uphill and yield to others.
- Always use devices to help prevent runaway equipment.
- Observe all posted signs and warnings. Keep off closed trails and out of closed areas.
- Prior to using any lift, you must have the knowledge and ability to load, ride and unload safely.

This is a partial list. It is designed for your own protection and endorsed by the National Ski Areas Association, the National Ski Patrol, the Professional Ski Instructors of America, and the American Association of Snowboard Instructors.

- Skiing is a positive environmental experience. Please help us care for the environment.
- Colorado State Law prohibits riding the lifts or skiing while under the influence of alcohol or drugs.
- Colorado State Law requires that you give your name to a ski area employee before you leave the vicinity if you are involved in a collision resulting in an injury. Witnesses are encouraged to contact a ski area employee.
- Do not enter closed lands adjoining a ski area.
- Winter Park has zero tolerance on closed trail violations. Violator's pass will be revoked for the season.
- Do not disembark from a chairlift except at a designated area.

Please be safety conscious and ski friendly! Snowcats, snowmobiles, snowmaking and other equipment may be encountered at any time. Stay clear. NO SLEDDING ALLOWED. Inverted aerials not recommended. Any activity other than downhill skiing or snowboarding may be prohibited or restricted within the ski area. It is your responsibility to contact Winter Park senior management for details.

HIGH ALTITUDE PRECAUTIONS

- Always wear sunscreen, sunglasses and a helmet or hat, even on cloudy days.

- Wear proper clothing to protect against frostbite.
- Keep hydrated, drink plenty of fluids.
- If you develop symptoms (headache, nausea or shortness of breath) that don't disappear in a couple of days or are getting worse, call or see a doctor.

EMERGENCIES

If you are in an accident or see an injury, contact ski patrol (wearing red jackets with white cross) by using a mountain emergency phone (red box with white cross) or through a lift attendant.

IN CASE OF INJURY

- Do not remove the injured person's skis.
- Cross your own skis uphill from the incident and send someone to report the location, type of injury and a description of the injured skier.
- Call the Ski Patrol via emergency phone or by cell phone at 970.726.1480.

KNOW YOUR LIMITS - INFORMATION

- Fast and/or reckless skiing and/or riding can result in injury to you or others and/or loss of your ticket.
- Slow down in designated areas marked "SLOW" and go no faster than the general flow of traffic.
- Do not enter closed trails by going through the trees. It is your responsibility to learn which trails are open. Share the slopes!
- Fencing, poles, padding and other markings are intended to alert you to certain hazards, not to protect you from injury.
- Violations of the Ski Safety Act may result in fines up to \$1000 and/or imprisonment.
- Smoking is prohibited while in lift lines, while riding lifts, in buildings or while on ski-able resort terrain.
- Winter Park discourages the use of music players and cell phone earpieces while loading and unloading lifts or while skiing and snowboarding.

BACKCOUNTRY WARNING

The ski area assumes no responsibility for skiers or riders going beyond the ski area boundary. Areas beyond the boundary are not patrolled or maintained. Avalanches, unmarked obstacles and other natural hazards exist. Rescue in the backcountry, if available, will be costly and may take time.

MOUNTAIN STATS & INFO

144 trails
3,078 skiable acres (1238 hectares)
354" average annual snowfall
25 lifts including two high-speed six-packs, seven high-speed quads, four triples, six double chairlifts, three surface lifts and three conveyor lifts.
Total uphill capacity - 38,370 riders per hour
