Ratings pertain to total Vail areas (North Side, Back Bowls and Game Creek).

Mountain Facilities:

New at Vail this year is a high speed 6-passenger Bell gondola with a 1100 skiers per hour capacity, and our #7 double chairlift. These two lifts serve our new LionsHead and Game Creek areas. Combined with the original gondola and six double chairlifts Vail now has an uphill capacity of over 10,000 skiers per hour.

Gift shops, and cafeteria food service including soft drinks, beer and wine, available at Mid Vail and Eagle's Nest gondola terminals.

Ski School:

Under the direction of Olympic Gold Medalist Roger Staub, the Vail Ski School has over 100 certified instructors from eight foreign countries, Canada and the United States. They teach the basic American Technique, as well as the latest advanced international techniques for experts.

Both group and private lessons are available each morning and afternoon. Tickets for Ski School Lessons may be purchased at all Vail and Vail/LionsHead ticket offices. Classes meet at the Golden Peak and LionsHead meeting places, and at Mid-Vail and Eagle's Nest by arrangement with the instructor.

Ski Patrol:

The Vail Ski Patrol consists of 30 full time professionals whose duty it is to render aid and control potential hazards.

When reporting any accident at slope-located patrol phones, it is important to give as much information as possible. If the exact location and type of accident is correctly reported, the Patrol is able to provide much faster service.

All slope closure signs and roped-off areas are maintained for your safety—we urge you to respect them. Violations may lead to loss of skiing privileges on Vail Mountain.
