Every run at this resort may have at least some man-made terrain features\*, such as jumps, rolls, and rails. Features vary constantly in sizes, shapes and snow conditions, and all features should be taken with caution. Know your own ability and inspect each feature before using it. If you wish to avoid them, there are available routes around every feature. Run ability designations are for the runs in general and are not for any terrain feature that may be on them. Ski or ride with care and use good judgment. Do not stop on the features or in the landing areas.
