

What's New for this Year

Silver Woods

Increasing the front side by 54%, skiers and snowboarders will have over 146 hectares (360 acres) of new terrain to explore this season, called Silver Woods.

With a vertical drop of 358 metres (1,175 feet), ten new intermediate trails and gladed "tree islands" will offer fabulous champagne powder skiing on the northeast slopes. The new Leitner-Poma high-speed express quad chair will whisk skiers and snowboarders to the top of the Roller Coaster trail in less than 5 minutes. Silver Woods will extend Vance Creek's vertical drop by 142 metres (466 feet) below the Comet Express.

Snowbird Lodge

Luxury accommodation located at the end of the village closest to the slopes! Each of the well-appointed 54 units are decorated with rich cherry wood cabinets and granite counter tops; heated tile floors refine the experience. Snowbird Lodge has some of the most stunning views of the mountain.

Silver Star
Mountain Resort

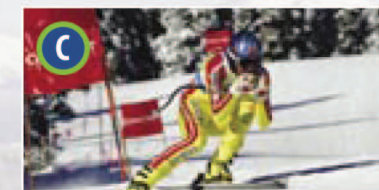

Aerial Training Site

Where the pros come for big air. Home of the 2004 Canadian Junior National Freestyle Championships, the aerial site is an exceptional training site - one of the best in western Canada.

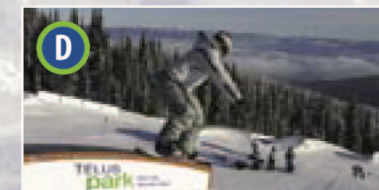

Mogul Course

Home of the 2004 Canadian Junior National Freestyle Championships, the Mogul Course is a fast-paced, 150 metre (492 foot), FIS-certified competition course for pro training and elite competition.

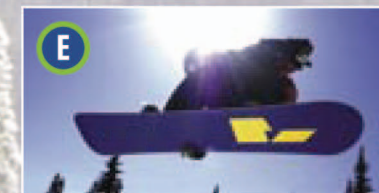

Race Centre

A whopping 275 metres (902 feet) of exhilaration! Keeping safety and performance in mind, the naturally rolling terrain and impressive drop will satisfy both elite racers and recreational enthusiasts.

Terrain Park & Rails

2.6 hectares (6.5 acres) of action designed for the progression of riders. There are 30 combined rails, fun boxes, S and C boxes, hits and snow features designed to create a wicked experience.

Halfpipe

A halfpipe for all abilities. Drop in and crank out your favourite trick to show off your style. The 4 metre (13 foot) transitional walls and over 140 metres (459 feet) of length make it perfect for everyone.
