UP-HILL TRAVEL POLICY
Up-hill travel using skis or snowshoes is permitted during daylight hours only, with any current lift ticket or season pass. A non-lift one day ticket or season pass is available for up-hill travel.

When traveling up-hill "travelers" must stay to the sides of the trails and stay visible from above at all times. Always be aware of the following but not limited to downhill traffic, snowmobiles, grooming tractors, other utility vehicles, winch cat cables, devices, snow guns running and non-running. Remember trail markings and closures may have been removed by ski patrol for maintenance. It is recommended that "travelers" take a cell phone with them and let someone know where they are intending to go. Trails are not patrolled when the mountain is closed. Sledding of any kind is not permitted.

In the event of an emergency:
•During daytime lift operating hours call Ski Patrol Summit 518-310-2723
•During nighttime lift operating hours call Ski Patrol First Aid 518-310-2724
•24-hours a day call Security 518-610-4237

New York state law requires that you familiarize yourself with the use of our lifts before attempting to use them. If you need assistance, please ask the lift operator for instructions.

These symbols indicate the relative degree of difficulty of a particular slope or trail compared with all other trails at Windham Mountain Resort. If you are unfamiliar with this ski area, you should transition through the various levels of difficulty beginning with the trails marked "Easier". If you are unable to ski down for any reason, please seek assistance from a lift attendant or ski patrol.

Be advised that all fencing, poles, signage and other marking devices are in place to inform you and to indicate a potential hazard or obstacle. These markers will not protect you from injury. It is your responsibility to stay away from marked areas. The purchase of a lift ticket does not mean you have the ability or right to ski all slopes. You must stay on slopes for which you have the ability.
