  - Anderson's
  - Patrol

Terrain beyond the access gates is not subject to avalanche control and is not patrolled. Be prepared, and ski or ride with a partner.

**RESPONSIBILITY CODE**

Sugar Bowl is committed to promoting slope safety. Please show courtesy to others and be aware that there are elements of risk in skiing and snowboarding that common sense and personal awareness can help reduce. Know the code. It is your responsibility.

- Always stay in control and be able to stop or avoid other people or objects.
- People ahead of you have the right of way. It's your responsibility to avoid them.
- You must not stop where you obstruct a trail or are not visible from above.
- Whenever starting downhill or merging into a trail, look uphill and yield to others.
- Always use devices to help prevent runaway equipment.
- Observe all posted signs and warnings. Keep off closed trails and out of closed areas.
- Prior to using any lift, you must have the knowledge and ability to load, ride and unload safely.

**WARNING**

You assume all responsibility for injury or death related to participating in skiing, snowboarding and other winter activities at Sugar Bowl Resort, whether in or out of the resort boundary. Sugar Bowl, in conjunction with the USFS, maintains an open boundary policy. The area beyond the ski area boundary is in its natural state, and we do not regularly perform avalanche mitigation or patrol beyond our boundary. Educate yourself before entering the backcountry. Visit [sierraavalanchecenter.org](http://sierraavalanchecenter.org) or call (530) 587-2158 for further backcountry information. It is unlawful to cross closed areas to access the ski area boundary.

PRINTED ON 100% STONE PAPER!

NO TREES USED

Sugar Bowl is committed to environmental sustainability, not because we have to but it's the right thing to do, which is why we chose to print our trail maps on paper made from 100% eco-friendly reclaimed stone. There are no trees, water, or hazardous chemicals used in production (and it's waterproof and tear-resistant)! Please recycle this map when finished. [stonepaperinfo.com](http://stonepaperinfo.com)
