

Revelstoke has the longest descent in North America, but we haven't lost sight of our roots from the top.

You've never visited a place quite like it before. Over 120 years of skiing history has become part of the town's fabric, creating a community that celebrates winter in all its forms. If you live for snow, welcome home. Revelstoke holds the Canadian record for snowfall at 80 feet, and the Resort's slopes are blanketed with 30-40 feet of powder every winter. Those who have been know; you may leave Revelstoke, but you'll never forget it.

#### A true winter mecca

Skiers and riders are drawn to Revelstoke with the promise of big snow and big terrain. Revelstoke is a winter mecca, offering lift, cat, heli & backcountry options with an abundance of terrain. For the beginner to intermediate skier, gentle slopes provide the perfect introduction for those new to snow sports, and modern facilities keep stoke levels high.

# A privileged heritage

Canada's newest ski resort in the home of North America's longest running ski club; it's the perfect blend, where authentic mountain culture meets high-speed lifts and resort amenities. In a town that evolved from ski-jumping roots in the 1800s to become the heli skiing capital of the world and a backcountry paradise, RMR's opening in 2007 was long-awaited.

Get from the valley to the peak - 5,620 feet - in just 2 high speed lift rides. Beginner, intermediate, and expert groomed trails intertwine from the top of the Stoke Chair to the village, creating Revelstoke's incomparable descent.

# 30-40 feet of powder

Revelstoke is located in an inland temperate rainforest between the Selkirk and Monashee mountain ranges. This unique area attracts plentiful light, dry snow and moderate temperatures letting you stay out and play for longer.

# 3,121 acres of terrain

Enjoy endless fall-line corduroy, 4 alpine bowls, and world-famous Selkirk tree skiing spread over 69 runs and areas.

# 100% high speed lifts

Mt. Mackenzie's conical shape gives easy access to all terrain with just five lifts, including the eight-passenger Revelation Gondola; an engineering feat that travels 3,839 vertical feet from the village base to the upper mountain.
