

COPPER MOUNTAIN TRAIL MAP

NATURALLY DIVIDED TERRAIN
 Copper is known for its Naturally Divided Terrain which helps separate skiers and riders by their chosen ability level, and assists them in experiencing the mountain at their own pace and comfort level. Beginners can explore and learn on the west side while intermediate skiers and riders enjoy top-to-bottom cruising trails on the central portion of the mountain. Experts have their own playground on the east side and in our High Alpine Bowls. Regardless of which trails you choose to ride, you will have access to Copper's three base villages and will be steps away from lodging at the end of the day.

This map is a graphic representation and does not accurately reflect the contours or dimensions of the resort or its specific areas.

Color Location Markers Indicated Only To Assist You In Contacting Ski Patrol.

Ski Area Boundary Closed. Access National Forest Only Through Access Point.

FREE TUCKER MOUNTAIN SNOWCAT ACCESS is as close to a backcountry experience you'll find inside any resort. Access Tucker Mountain by hiking the West Ridge of Copper Bowl, or by taking a FREE ride in a Tucker Mountain Snowcat. Cats run from 10:00am to 1:30pm daily. Cat operations, terrain openings and conditions may vary and are subject to change. Tucker Mountain closes at 2:00pm.

FOR MORE INFORMATION ON THESE AND OTHER ACTIVITIES, PLEASE CALL 4INFO OR VISIT THE ADVENTURE DESK, LOCATED IN THE MOUNTAIN ADVENTURE CENTER IN THE VILLAGE AT COPPER.

MOUNTAIN SAFETY

WARNING:

Under Colorado Law, a skier assumes the risk of any injury to person or property resulting from any of the inherent dangers and risks of skiing and may not recover from any ski area operator for any injury resulting from any of the inherent dangers and risks of skiing including: changing weather conditions, existing and changing snow conditions, bare spots, rocks, stumps, trees, collisions with natural objects, man-made objects or other skiers, variations in terrain, and the failure of skiers to ski within their own abilities.

The Ski Safety Act includes cliffs, extreme terrain, jumps and freestyle terrain as inherent dangers and risks of the sport. Snowcats, snowmobiles, snowmaking and other equipment and vehicles may be encountered at any time.

IT'S YOUR RESPONSIBILITY

Skier safety is everyone's responsibility. At this resort you may see people using alpine, snowboard, telemark, cross country or other specialized equipment, such as that used by disabled skiers. Regardless of how you choose to enjoy the slopes, always show courtesy to others and be aware that there are elements of risk in skiing that common sense and personal awareness can help reduce. For instance, helmets may make a difference in reducing or preventing some injuries. Like all equipment, make sure you have the proper fit and that it is in proper working order. Whether you wear a helmet or not, always ski responsibly and within your abilities. Observe the code below and share with other skiers the responsibility for a great experience.

This partial list is endorsed by the National Ski Areas Association, National Ski Patrol, Professional Ski Instructors of America and the American Association of Snowboard Instructors.

YOUR RESPONSIBILITY CODE

1. Always stay in control, and be able to stop or avoid other people or objects.
 2. People ahead of you have the right of way. It is your responsibility to avoid them.
 3. You must not stop where you obstruct a trail or are not visible from above.
 4. Whenever starting downhill or merging into a trail, look uphill and yield to others.
 5. Always use devices to help prevent runaway equipment.
 6. Observe all posted signs and warnings. Keep off closed trails and out of closed areas.
 7. Prior to using any lift, you must have the knowledge and ability to load, ride and unload safely.
- Colorado law prohibits riding the lifts or skiing while under the influence of alcohol or drugs.
 - Colorado law requires that you give your name and current address to a ski area employee before you leave the vicinity if you are involved in a collision resulting in injury.
 - Witnesses are encouraged to contact a ski area employee.
 - It is forbidden to ski or enter any trail or area that has been closed by a rope or is marked with a "CLOSED" sign. Violator's pass may be revoked for the season.
 - Lands adjacent to Copper Mountain Resort are owned and operated by the United States Forest Service. Do not enter this land except for Copper Mountain's one USFS access point as labeled on the map.

BACKCOUNTRY WARNING

The ski area assumes no responsibility for skiers or riders going beyond the ski area boundary. Areas beyond the boundary are not patrolled or maintained. Avalanches, unmarked obstacles and other natural hazards may exist. Rescue in the backcountry, if available, will be costly and may take time. For current local weather and avalanche conditions, contact the Colorado Avalanche Information Center hotline sponsored by the Summit County Rescue Group at 970.668.0600. BE ADVISED. BE SAFE.

HIGH ALTITUDE PRECAUTIONS

- Wear sunscreen, sunglasses and a hat - even on cloudy days.
- Wear proper clothing to protect against frostbite.
- Keep hydrated, drink plenty of fluids.
- If you develop symptoms (headache, nausea or shortness of breath), seek medical help.

KNOW YOUR LIMIT

- Fast and/or reckless skiing and/or riding can result in injury to you or others, and may result in the loss of your ticket.
- Slow down in designated areas marked "SLOW" and go no faster than the general flow of traffic.
- Do not enter closed trails by going through the trees. It is your responsibility to know which trails are open. Share the slopes!

AVOID ALL OBSTACLES

Padding, fencing and other markings are intended to alert you to certain hazards, not to protect you from injury.

SKI PATROL

The 150 members and avalanche dogs of the Ski Patrol welcome you to Copper. Look for Ski Patrol in black jackets and yellow vests with crosses. Please feel free to ask any patrolor or other mountain personnel for information or assistance.

Gas-friendly to gas-free.
