

# on the mountain – safety starts with you!

For a safe skiing or riding experience, please review mountain and weather conditions before you hit the slopes.

- The various difficulty ratings on this map are relative to the Snowbird area and cannot be compared to other ski areas. Start with green runs first. During periods of low visibility or other inclement weather and snow conditions, the degree of difficulty of the ski runs may change. Check with Ski Patrol or any mountain employee for current conditions. It is critical that you know, understand and obey Your Responsibility Code as listed on the other side of this trail map.
- Obey all “**SLOW SKIING**” signs. All blue and green runs at Snowbird are slow skiing areas. Fast or reckless skiing and snowboarding are not permitted at Snowbird. Skiing or snowboarding irresponsibly will result in loss of skiing and snowboarding privileges without compensation.
- Obey all “**CLOSED-AVALANCHE DANGER**” and “**CLOSED AREA**” signs. It is unlawful for any person to enter any area designated as closed or unsafe; violators will be prosecuted. Enter avalanche control areas through open gates only. After passing through an open gate, **HIKING ABOVE THE GLIDING TRAVERSE IS NOT PERMITTED**.
- Areas beyond the ski area boundary are not patrolled or maintained, and Snowbird assumes no responsibility for the safety and welfare of skiers going beyond the boundary.
- RISK OF AVALANCHE WARNING:** Avalanche hazard mitigation measures within the ski area boundaries help reduce the risk of avalanches but cannot eliminate the possibility of an avalanche occurring in avalanche prone areas and run-out zones open for skiing.

 The flying of drones is not permitted at Snowbird. [snowbird.com/drones](https://snowbird.com/drones)

## the inherent risk of skiing

No skier (any person present in a ski area for the purpose of engaging in the sport of skiing, nordic, freestyle, or other types of ski jumping, using skis, sled, tube, snowboard or any other device) shall make any claim against, or recover from any ski area operator for injury resulting from any of the inherent risks of skiing, which means those dangers or conditions which are an integral part of the sport of recreational, competitive, or professional skiing, including, but not limited to:

- Changing weather conditions, avalanches, and snow immersions;
- Snow or ice conditions, as they exist or may change including but not limited to, avalanches, hard pack, ice, powder, packed powder, wind pack, corn, crust, slush, cut-up snow, or machine-made snow;
- Surface or subsurface conditions such as bare spots, forest growth, rocks, stumps, streambeds, cliffs, trees, tree wells, and other natural objects;
- Variations or steepness in terrain, whether natural or as a result of slope design, snow making or grooming operations, and other terrain modifications such as terrain parks, and terrain features such as jumps, rails, fun boxes, and all other constructed and natural features such as half pipes, quarter pipes, or freestyle-bump terrain;
- Impact with lift towers, snowmobiles, snow vehicles, and/or other structures and their components, such as signs, posts, fences or enclosures, hydrants, or water pipes;
- Collisions with other skiers;
- Participation in, or practicing or training for, competitions or special events;
- Failure of a skier to ski within the skiers own ability.

BE AWARE THAT SNOW-MAKING AND/OR SNOW-WORKING (where applicable) may be in progress. If you cannot accept the inherent risks of the sport, please do not ski at this area.

REMEMBER TO ALWAYS SKI SAFELY, WITHIN CONTROL.

## health & safety

At Snowbird, our guiding principle is the health and safety of our employees, guests and local community. We are committed to maintaining our operations responsibly and have developed Operation Stay Safe in response to COVID-19. We developed our protocols based on recommendations from the Centers for Disease Control and Prevention (CDC), Salt Lake County Health Department (SLCoHD) and the State of Utah.

As this is a dynamic situation, we will be frequently adjusting our safety policies and operations to protect our employees and guests. Scan the QR Code or visit [snowbird.com/health-safety](https://snowbird.com/health-safety).

## masks are required at snowbird

Indoors and outdoors within Snowbird Village and on the Tram. Masks are available upon request.

### what we're doing:

Daily health screening for every employee.

Requiring all employees to wear a mask.

Disinfecting touch-point areas and handrails with BioProtect.

Providing hand sanitizing stations throughout the resort.

Installing protective plexiglass shields between the guests and employees where possible.

Foot passengers will not be accommodated this season to allow more room for skiers and riders.

Setting up maze configurations to maximize physical distancing in lift lines.

Limiting guest capacity through available parking inventory.

### we ask our guests to:

Stay home if you are displaying signs of respiratory illness or have a fever.

Practice physical distancing.

Wear mask, except when eating, skiing, riding or inside your hotel room.

Note: Neck Gaiters are okay while skiing, but not in restaurants, bars or indoor public areas. Masks are available upon request.

Wash hands or use sanitizer frequently.

Pay with credit card or mobile payment rather than cash.

Don't congregate or spectate in common areas.
