## HOMEWOOD SNOWCAT ADVENTURES THE ULTIMATE RIDESHARE

Take the trail less traveled, every lap of the day. Homewood Snowcat Adventures accesses over 750 acres of backcountry terrain on the flanks of Ellis Peak, above the resort's traditional ski area boundary.

All-day packages with Homewood Snowcat Adventures feature a small group (9 skier/rider max) and a fully guided experience in the out-of-bounds terrain accessed by the snowcat. Once transported to the peak, you'll enjoy guided access to a wide variety of terrain options from perfectly-spaced tree runs to steepes, powder bowls and intermediate-level glades all leading guests back to the in-bounds terrain at the resort.

Part of our operational plan this winter is to embrace something we have always been known for, fewer crowds. We will be limiting the number of skiers on the mountain daily and have also capped our season pass sales by 25%. With safety as a top priority this will allow us to ensure social distancing on the mountain and throughout our base areas. **CLOSED AREAS**  
The Homewood Ski Patrol may, at times, close boundary access and portions of the ski area. These closures are implemented to prevent you from entering areas that pose a hazard to your health. You are not permitted to enter closed areas. Homewood strictly enforces this policy. If you are found in a closed area, your lift privileges and day ticket or season pass will be revoked and you may be arrested.

A green circle, blue square or black diamond trail at Homewood is not necessarily the same as similarly rated trail somewhere else. It's a relative system valid only at this area. Regardless of skill level, you should work your way up, beginning with the easiest trails, until you're familiar with the terrain.

**SMART STYLE**

- **Make a Plan:** Every time you see freestyle terrain, make a plan for each feature you want to use. Your speed, approach and take off will directly affect your maneuver and landing.
- **Look Before You Leap:** Before getting into freestyle terrain observe all signage and warnings. Scope around the jumps first, but not over them.
- **Easy Style It:** Know your limits and ski/ride within your ability level. Do not attempt any features unless you have sufficient ability and experience to do so safely.
- **Respect Gets Respect:** Respect the terrain and others (freestyle terrain is for everyone regardless of equipment or ability). One person on a feature at a time. Wait your turn and call your start. Always clear the landing area quickly. Respect all signs and stay off closed terrain and features.

**BACKCOUNTRY**  
Homewood maintains an open boundary policy. The area beyond the ski area boundary is in its natural state and Homewood does not regularly patrol, perform avalanche control, or take additional measures to mitigate the hazards to which you might be exposed. Entering the backcountry involves risks posed by deep snow, avalanches, steep terrain, cliffs, and other terrain variations. If you're skiing or snowboarding beyond the ski area boundary, you assume all risks inherent in the backcountry. Please take time to educate yourself about the risks before entering. It is unlawful to cross through closed areas to access the ski area boundary. Please ski and snowboard responsibly.

**YOUR RESPONSIBILITY CODE**

- Always stay in control. Maintain the ability to stop and avoid other people and objects.
- Avoid the people ahead of you. They have the right of way, and it's your responsibility to yield to them.
- Do not stop where you obstruct a trail or are not visible from above.
- Look uphill and yield to others when starting downhill or merging into a trail.
- Always use devices to help prevent runaway equipment.
- Observe all posted signs and warnings.
- Keep off closed trails and out of closed areas.
- Prior to using any lift, know how to load, ride and unload safely.

**ON MOUNTAIN DINING**  
Indoor dining and spaces will be limited this season. We are encouraging everyone to use their car as their lodge
