LEARN TO SKI

UNLIMITED LESSONS

The quality and variety of Skiing at Smugglers' Notch are well known throughout the East. There are three major mountains to choose from — each with its own character and advantages. Our certified staff of teaching professionals use the American Teaching Method, short skis, a wide gentle learners' slope, good snow surfaces assured by snowmaking, and the helpful encouragement of instructors and companions making you feel safe and confident. At Smugglers' Notch, one whole mountain is for learners.

Children enjoy their own ski school at Smugglers' Notch. The Childrens' ski school is designed to introduce our younger skiers, comfortably and enjoyable, to the first steps in their learn-to-ski adventure.
