## SAFETY INFORMATION

This signpost indicates that the ski slope or route concerned has been closed for safety reasons.

This avalanche warning sign warns of general or locally permanent or acute avalanche hazards in the open terrain.

### Special rules of skiing

- Before you start, always look uphill too!
- Don't ski recklessly; keep your skiing under control!
- Pay attention to what is ahead of you and slow down in crowded areas!
- The slower skier ahead of you has right of way!
- Don't stop in narrow places or where you are not easily seen!
- If an accident occurs, everyone has the duty to help!
- Obey all signs and markings at the lift stations and in the terrain and obey the warnings on the panorama signposts!

### Skiing accidents

Report accidents at any lift station or at the ticket window at the valley station Hochkar Bergbahn (main mountain rescue services).

Slopes closed: Slopes are generally closed from 5:00 p.m. (exception: slope with floodlights on skiing nights)

This sign indicates that it is forbidden to ski in the closed afforestation areas.
