POWDER BUMPS

The Bergbahn AG Kitzbühel seek to offer our guests optimum piste conditions for every skiing day. In case of new snowfall, however, they will not be able to groom all trails at the same time, even when using a maximum of grooming machines. Under certain weather conditions, new snow is bonding poorly to the underlying snow surface. Despite compacting roller grooming, new bumps (moguls) are formed by skiers' first turns, which does not come from poor trail grooming.

6. Family Tour

Ascent by the Horn Gondola I and II to the Alpenhaus. Here you have the choice, always depending on your level of proficiency, of trying the Trattalmulde (for beginners and advanced beginners) or the sunny summit (for advanced skiers). Beginners are recommended to start with the Trattalmulde, easily accessible by Horn Gondola I and II and the Alpenhaus lift. The "Magic Carpet" is the ideal surface for first turns and the terrain ideally suited to improve your skills with every day. Beginner skiers get to know various types of uphill loading from babylift to T-bar and chairlift and will not be disturbed by any obstacles or trail crossings when taking their first steps on the slopes. We recommend the Hagstein trail No. 3 as a family top to bottom run.

Boarders Paradise

Come up and try the varied boardercross and halfpipe area on top of the Kitzbüheler Horn! Then take the trail down to the Trattalmulde and ride the 2-seater chairlift up to the Hornköpfl. The ultimate kick: riding down the wild terrain on the south side with natural "kickers" and powder, and back again to the Trattalmulde. And, after all this excitement, freaks may be tempted to try the quarterpipe with big jump.

Off Piste Bichlalm

The groomed uphill and downhill tracks of the Bichlalm area is the very thing for ski tourers and off-piste skiers. The Bichlalm Shuttle will take groups accompanied by a ski or mountain guide - up to the starting point for a number of tours into the open terrain. Simply register with the "Alpin Experts" of the Kitzbühel Ski School on: +43 (0)5356/63 177. Our recommendation: evening parties at the mountain inn Bichlalm are as legendary as skiing down by the light of the moon.

TOP RELAXATION: AQUARENA

Swim centre featuring indoor pools and large wellness area: steam bath, infrared cabin, top-of-the-line Ergoline Excellence 880 suntanning rooms, sauna, sanarium (bio sauna), spacious rest zone in the sauna area, adventure pool with Black Hole and tube slide. 50% reduction at indoor pool for holders of Ski Passes valid 2 days and longer and Bergbahn AG Season Passes; free indoor pool admission for holders of Bergbahn AG 1-Year Passes. The Ski&Sauna Pass includes: use of gondolas and lifts, admission to indoor pool as well as sauna (valid 1 year from issue date).

4. The Master Tour

You will require strong calf muscles, good physical condition and should not suffer from dizziness. The flight in the 3S-Gondola is a breathtaking adventure. The Master Tour can be started from the Panoramabahn Kitzbüheler Alpen, either at the bottom station at Hollersbach or from the mid-station at Breitmoos. Don't forget to warm up before starting the Master Tour!
