

COPPER MOUNTAIN 2006/2007 TRAIL MAP

NATURALLY DIVIDED TERRAIN // Copper is known for its Naturally Divided Terrain which helps separate skiers and riders by their chosen ability level, and assists them in experiencing the mountain at their own pace and comfort level. Beginners can explore and learn on the west side while intermediate skiers and riders enjoy top-to-bottom cruising trails on the central portion of the mountain. Experts have their own playground on the east side and in our High Alpine Bowls. Regardless of which trails you choose to ride, you will have access to Copper's three base villages and will be steps away from lodging at the end of the day.

This map is an artistic representation and does not accurately reflect the contours or dimensions of the resort or its specific areas.

TUCKER MOUNTAIN SNOWCAT ACCESS is as close to a backcountry experience you'll find inside any resort. Access Tucker Mountain by hiking the West Ridge of Copper Bowl, or by taking a FREE ride in a Tucker Mountain Snowcat. Cats run from 10:00am to 1:30pm daily. Cat operations, terrain openings and conditions may vary and are subject to change. Tucker Mountain closes at 2:00pm.
