

**CAUTION:** This is an unscaled diagram showing the general configuration of trails at the mountain. No representation is made concerning the number of trails open or closed at the same time. It cannot and will not depict specific snow conditions which are continuously changing.

Be aware of changing conditions. Natural and man-made obstacles exist. Snowmaking and grooming activities are routinely in progress on trails. Skiers should realize that falls and collisions do occur and injuries may result. Use caution, ski in control, and ski on designated trails only. Always follow the skiers responsibility code.
